

What are we ?

The Hospice is a residential facility with seven bedrooms, five baths and will accommodate up to twelve residents at a time in both single and double rooms.

We are dedicated to providing our community with a comprehensive mix of supportive services to assist the veteran living with life threatening illness. To the greatest extent possible we strive to provide a warm family-like atmosphere. Residents are encouraged to tend to as many of their needs as they are able. Residents contribute one-third of their income toward the purchase of food and share in the preparation of meals. Weekly house meetings are conducted to address community concerns and issues.

What do we do ?

We provide an innovative, specialized transitional housing program to serve homeless veterans who are diagnosed with either HIV/Aids or other terminal illnesses and are no longer able to care for themselves. Once a veteran is admitted as a resident, the staff at VHH renders an assessment to identify individual needs. The Homestead continually assesses the needs of its residents, assisting them in the difficult process of coping, living, and dying with dignity.

Services include:

Specialized Counseling
Transportation
Peer Counseling
SSI Case Management

Medical
Food
Clergy
Home Health Aides

Mental Health
Advocacy
Attorney

What's the bottom line?

- ☒ Veterans Only.
- ☒ For Terminally Ill.
